Driving Licence

Lens, 62300

PROJECTS

- **Battleship**
  Creation of the naval battle game in Java, with a graphical interface made in XML.

- **Installation of network services**
  Configuration of a network in IPV4 and IPV6 as well as configuration files in Bash script.

- **Connect 4**
  I created the power of 4 game in python with a graphical interface in a group of 3 people..

- **Participation in a coding competition**
  ARC Artois 2023 (october 2023)

EDUCATION

Three year University degree in IT
September 2022 - Today
IUT de Lens

Baccalauréat scientifique
June 2022
Specialty Mathematics and Physics Chemistry
High school Pierre Bayen in Châlons-en-Champagne

EXPERIENCE

- **Champagne thermolaquage**
  July - August 2023
  During this job as a handling operator, I had to sand parts and hang them. This experience enabled me to work as part of a team and gain exposure to the professional work environment.

- **Refuse disposal Municipale**
  July 2022
  PDuring this period, I guided individuals to the correct bins, which taught me customer relations and the importance of precision in work.
